

SignatureManager

**Shorten the sales cycle
by 15 days thanks to digital signatures**

It allows for a fast, easy, and legal signage
of all contracts and documents

Why Signature Manager?

- **Reduce costs**
Eliminate unnecessary costs associated with excess admin work
- **Close deals faster**
Send out and sign contracts from any mobile device without the need for a third-party application
- **Efficient document management**
Digitize your contracts and have them centralized in one, easy to access place
- **Personalized tracking options**
From ForceManager, you can see who has recently signed a contract as well as those that are pending

How does it work?

Attach a document

Any document that's associated with an account or order can be signed

Send the signage request

In just one click you can send any document to be signed with a personal note attached

Monitor signatures

Track both signed documents and those that are pending to ensure no deal slips through the cracks

Activate SignatureManager with your Customer Success Manager
